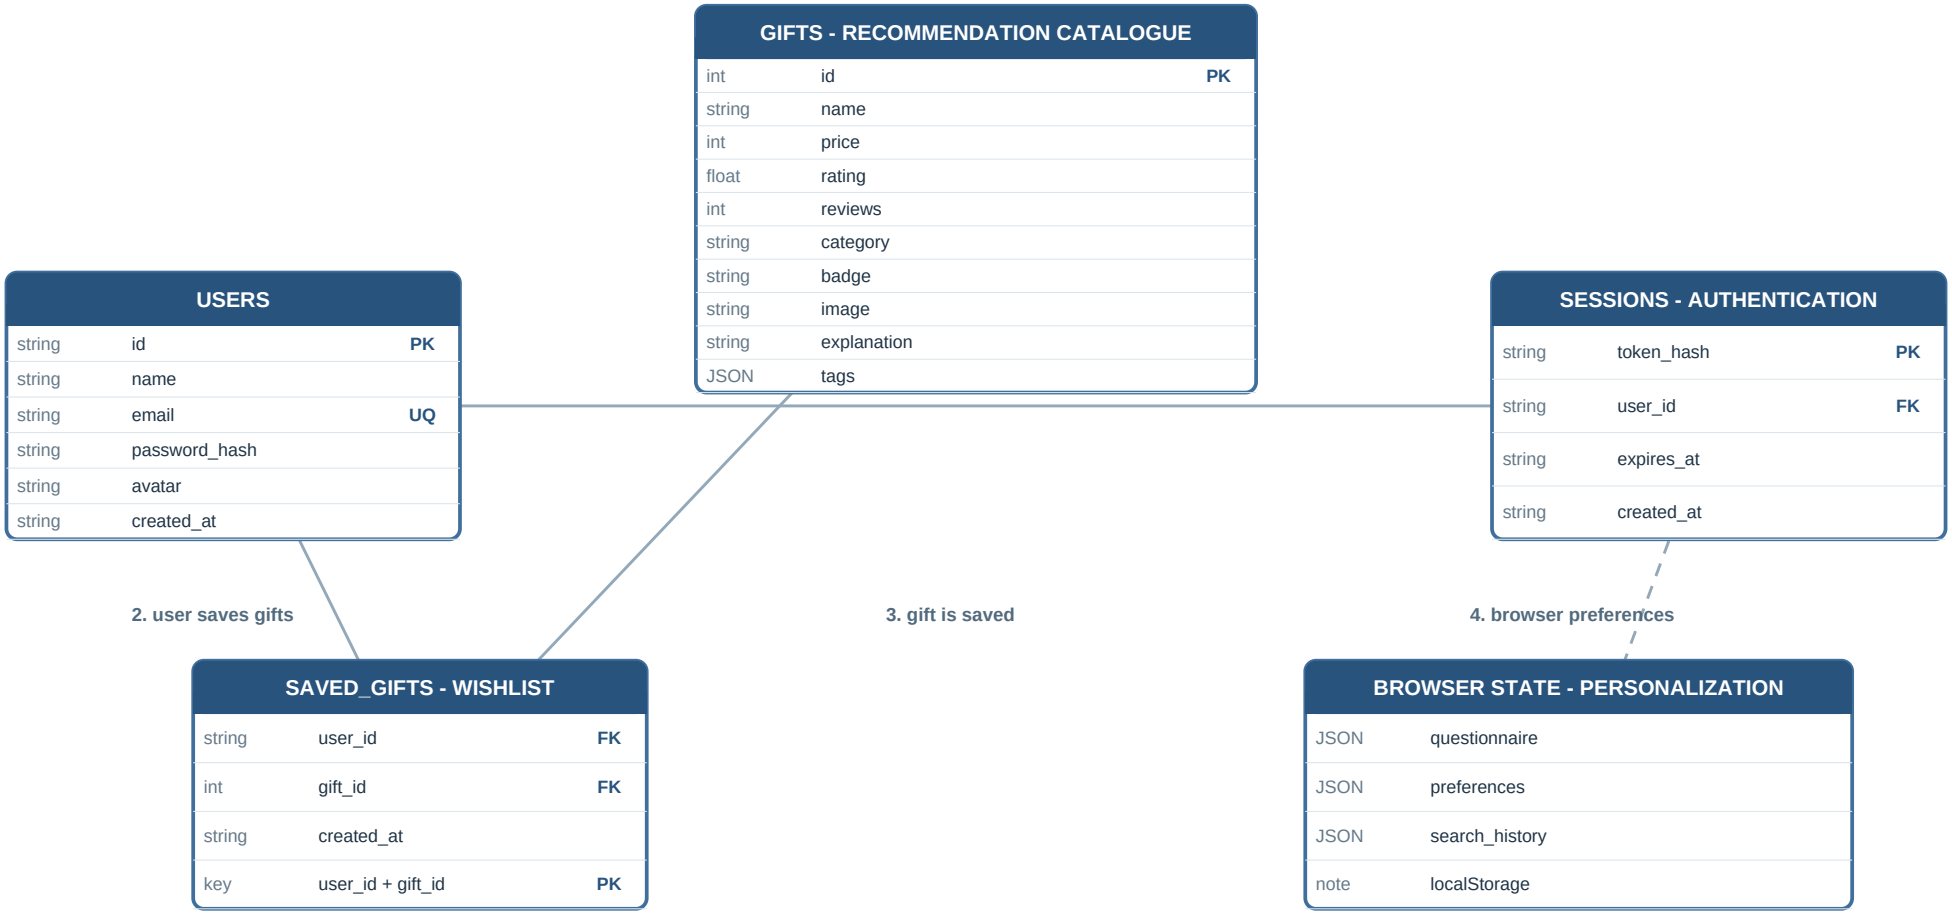
Gift Genie | Complete Data Design

A clear view of accounts, authentication, gifts, wishlists, recommendations, and browser preferences.

React + Express + SQLite



1. USERS -> SESSIONS
Each login session belongs to one user.

2. USERS -> SAVED_GIFTS
A user can save many favourite gifts.

3. GIFTS -> SAVED_GIFTS
The bridge links users to gift records.

4. BROWSER STATE
Questionnaire and accessibility settings stay in loca lStorage.

PK = primary key | FK = foreign key | UQ = unique field

Prepared for Gift Genie project review
